John Salaveria

Front-end Developer | Product Designer | 4A Software Engineering
johnsington.me | jj.salaveria@gmail.com

SKILL SETS

Tech - jQuery, NodeJS, Express, MongoDB, MVC, Git
Design - Figma, Sketch, FramerJS, Marvel, Photoshop, Illustrator, Zeplin
Languages - JavaScript/ECMAscript 6, Java, C++, C
Markup - HTML5, CSS3, Sass, Jade, Handlebars, Markdown

WORK

Noom, Product Designer — Jan - Apr 2017
- Designed a suggested messages tool for a web dashboard from research to prototype to scale the coaching experience for a 170:1 user-to-coach ratio.
- Led a major whitelabel project for Philips by delivering visual assets and mobile app mockups to reflect their visual branding.

Sequence, Front End Engineer — Apr - Sep 2016
- Produced a high-fidelity Assemble.io prototype for a Facebook for Business website redesign, designed and coded user interaction behaviour.
- Implemented front-end widgets from complex mockups within a custom-built content management system for Chipotle.

Monstercat, Full Stack Engineer, UI — Aug - Dec 2015
- Took full ownership of redesigning monstercat.com UI components from producing mockups to HTML prototyping to technical implementation.
- Developed an internal Slack application that enabled non-technical employees to query and export MongoDB data into a human-readable format.
- Launched a Node client-server web app for an art contest in one week.

Klick Health, Front End Web Developer — Jan - Apr 2015
- Implemented HTML email campaigns with extensive cross-browser compatibility to reach thousands of pharmaceutical consumers.

SIDE PROJECTS

johnsington.me — Winter 2015
Redesigned the UI and software architecture of my personal website with a Jekyll-like build framework, features responsive design using HTML5, SASS, and jQuery.

#instakarma — Winter 2015
Designed and developed a responsive web app that leverages the Instagram API and AJAX methods to count the total likes of a user's most recent photos.

AWARDS

IBM Entrance Scholarship in Engineering, UW Alumni, 2013
Lieutenant Governor's Award, Government of Ontario, 2013

ACTIVITIES

Design Director, UW Blueprint — Non-Profit, Winter 2017 - Present
President, UW Style Society — Fashion, Winter 2016 - Present

EDUCATION

Candidate for Bachelor of Software Engineering
Class of 2018, University of Waterloo
